

Oil Miser®

OM-180 HYDRONIC HEATER AND OM-148 ON-DEMAND WATER HEATER

OM-148

OM-180

**State-Of-The-Art
Electronic Controls
for smooth and safe
operation.**

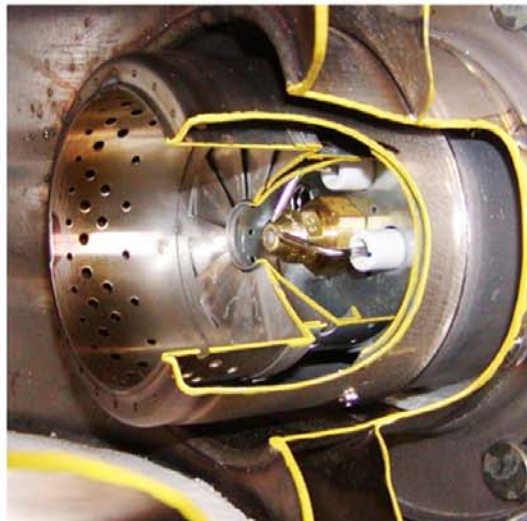

**Cabinet and Heat
Exchanger are
constructed of
stainless steel to
insure durability.**

**Inside the Heat Exchanger
is a series of exhaust tubes
that allow water to flow easily
around. Old Coil Type
Exchangers can build up
with hard water deposits
that restrict water flow.**

FEATURES

**Compact size allows
for space saving
installations.**

**Utilizes a high efficiency
Gun Type Burner
Assembly.**
